1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In line 11 of the specification, "now allowed" has been changed to ---now US Patent number 6,728,491.---

2. This application is in condition for allowance except for the presence of claims 12-34 to species which are non-elected without traverse. Accordingly, claims 12-34 been cancelled.

3. Although in the original election of 12-22-2004 the applicant elected claims 7-11 and 36-38, the allowable subject matter is drawn toward dispersion compensation units which control using both a PMD control unit and a chromatic dispersion control unit which were also claimed in claims 1-6 and 35. In that the allowable features were in claims 1-11 and 35-38, claims 1-6 and 35 were rejoined.

4. Claims 1-11 and 35-38 are allowed.

5. The following is an examiner's statement of reasons for allowance: the prior art of record (Fishman or Ono) do not teach polarization mode dispersion controller units and chromatic dispersion units in which a specific frequency component detecting means and a first intensity detecting means are used.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bulow, Eggleton and Penninckx teach dispersion compensation.

They do not teach polarization mode dispersion controller units and chromatic dispersion units in which a specific frequency component detecting means and a first intensity detecting means are used.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leslie Pascal whose telephone number is 571-272-3032. The examiner can normally be reached on Monday, Friday 6:30-5:00.
